QBE LLC's Schedule 84 Law Enforcement and Security Offerings

SIN 246-60-1: Security Systems Integration and Design Services

Services involving the security integration and/or management discipline which supports security products or systems throughout their life cycle. Security Systems integration and design services may include, but are not limited to, those associated with the design, test, production, fielding, sustainment, improvement of cost effective security, and/or protection systems, including the eventual disposal or salvage of these systems. Services may include studies and analysis such as risk assessment, threat evaluation, and assessment (including resultant deliverables). Contractors may provide security or protection expertise in the pre-production or design phase of security or protection systems to ensure that the system can be supported through its life cycle and that the infrastructure elements necessary for operational support are identified and acquired. These services may continue throughout the life cycle of the system or product and may include guidance, assistance, and/or operational support. This includes all necessary security management elements.

SIN 246-60-2: Security Management and Support Services

Services providing the best practices, technologies and methodologies to plan, design, manage, operate, and maintain secure and protected systems, equipment, facilities, and infrastructures. Agency orders may include complete turnkey operations, maintenance and support services, or components thereof as needed to ensure secure and protected systems involving personnel security, physical access, and information security, and reduce life-cycle costs. Contractor personnel carrying out these activities, including management and operating staffs, are not involved with or responsible for the core business of the customer agency placing the order.

SIN 246-60-3: Security System Life Cycle Support

Services providing for design, coding, integration, testing, deploying, repair and maintenance of integrated security systems, and training across all platforms, enterprise wide, for the complete life cycle of the system.

Terms and Conditions

GSA multiple award schedule contracts are awarded in accordance with the provisions of Federal Acquisition Regulation Part 12—Acquisition of Commercial Items. To the maximum extent practicable, GSA multiple award schedule contracts include only those clauses and terms and conditions, either required to implement provisions of law or executive orders applicable to the acquisition of commercial items, or determined to be consistent with customary commercial practice. Ordering agencies may incorporate provisions in their task orders that are essential to their specific requirements (i.e., security, hazardous material handling, key personnel, etc.), provided they do not conflict with the terms and conditions of the contract. These provisions, when required, must be included in the individual task order, and any costs necessary to comply with the provision(s) will be included in the task order proposal price estimate, unless otherwise prohibited by law. The terms and conditions of QBE LLC's Schedule 84 contract are the most current to Solicitation Number 7FCI-L3-030084-B.
